The Rise And Fall of British Naval Mastery

Paul M. Kennedy

The Rise And Fall of British Naval Mastery Paul M. Kennedy

First published in 1976, this book is the first detailed examination of the history of British sea power since A.T. Mahan's classic *The Influence of Sea Power on History*, published in 1890. In analyzing the reasons for the rise and fall of Great Britain as a predominant maritime nation in the period from the Tudors to the present day, Professor Kennedy sets the Royal Navy within a framework of national, international, economic, political and strategical considerations.

To this new paperback edition the author has added a new introduction that brings the discussion of naval power up to date, with special emphasis on today's enormous U.S. Navy as the prime contemporary example of the use of naval forces to wield global influence.
