*Jules Verne*

**From the Earth to the Moon and Round the Moon** Jules Verne

**A team of nineteenth-century American engineers builds a rocket to the moon in this visionary novel from the author of *Twenty Thousand Leagues Under the Sea* and *Around the World in Eighty Days***

During the Civil War, the members of the Baltimore Gun Club delighted themselves by designing artillery the likes of which the world had never seen. But when the South eventually surrenders, the gun club languishes, until its president, Impey Barbicane, conceives of a project so preposterous it must be attempted: to build a gun large enough to fire a rocket to the moon.

From raising the money to casting the cannon to readying it to fire, the gun club overcomes one seemingly insurmountable obstacle after another. But when a rival engineer and an intrepid French adventurer join Barbicane on the spaceship's inaugural voyage, the three men soon discover that getting to the moon is only half the battle: Making it home will be their toughest challenge yet.

*From the Earth to the Moon* and its sequel, *Round the Moon*, were published nearly a century before the Apollo missions. Suspenseful, humorous, and prophetic, these captivating adventure stories sparked mankind's enduring fascination with space travel.

This ebook has been professionally proofread to ensure accuracy and readability on all devices.
