"Tsou, one of the country's senior and most widely respected China scholars, has for more than a generation been producing timely and deeply informed essays on Chinese politics as it develops. Eight of these (from a wide variety of sources) are gathered here with a substantial new introduction. Tsou considers events not simply from the point of view of a widely read political scientist (even political philosopher) and a concerned Chinese, but also in the light of history, the dynamics of Marxism-Leninism, individual personalities, and humane realism."—Charles W. Hayford, *Library Journal*
