Sex Positions: Expand Your Sex Repertoire with Great Sex Positions that Will Change Your Relationship (Couples Sex Guide) Sarah Benson

It is amazing (and scary) how so many people have no idea the immensity of different sensations they can experience during sex. They, either through their upbringing or culture, often cut themselves off of the adventure, the experimentation, the self-exploration and the exploration of another, by simply muffling the importance of sex to being only a means for reproduction.

Why, then, is it that relationships fail when sex is lost? Why is it that a man cannot keep a happy wife or partner by simply using her as a means to give him children? Could it be, possibly, that men and women are meant to be on level with each other? That they are meant to create and explore and feel together? And that the sexual relationship is more than just a means to an end, but an end unto itself. A pillar, one of many, that holds up relationships and makes them stronger?

It is with that thought that this book was written. And, that is exactly what we are going to exploring. You are wished the best of luck on your adventurous rediscovery of sex and intimacy. Enjoy!

In This Book You Will Learn:

- How to perform the following sex positions: The Hot Seat, The Pretzel, Doggy, The Anvil, Mountain Climber, and The Sleeper Hold.
- The means to make any of the above positions more comfortable and more enjoyable through minor but effective alterations.
- Subtle tips for men and women on how to improve affection, create intimacy, and make each other feel special.
