The Second Stage

Betty Friedan

The Second Stage Betty Friedan

First published in 1981, *The Second Stage* is eerily prescient and timely, a reminder that much of what is called new thinking in feminism has been eloquently observed and argued before. Warning the women's movement against dissolving into factionalism, male-bashing, and preoccupation with sexual and identity politics rather than bottom-line political and economic inequalities, Friedan argues that once past the initial phases of describing and working against political and economic injustices, the women's movement should focus on working with men to remake private and public arrangements that work against full lives with children for women and men both. Friedan's agenda to preserve families is far more radical than it appears, for she argues that a truly equitable preservation of marriage and family may require a reorganization of many aspects of conventional middle-class life, from the greater use of flex time and job-sharing, to company-sponsored daycare, to new home designs to permit communal housekeeping and cooking arrangements.

Called "utopian" fifteen years ago, when it seemed unbelievable that women had enough power in the workplace to make effective demands, or that men would join them, some of these visions are slowly but steadily coming to pass even now. The problem Friedan identifies is as real now as it was years ago: "how to live the equality we fought for," and continue to fight for, with "the family as new feminist frontier." She writes not only for women's liberation but for human liberation.

From reader reviews:

Annie Boyd:

What do you consider book? It is just for students as they are still students or that for all people in the world, exactly what the best subject for that? Simply you can be answered for that issue above. Every person has various personality and hobby for each other. Don't to be pushed someone or something that they don't want do that. You must know how great and important the book The Second Stage. All type of book is it possible to see on many sources. You can look for the internet methods or other social media.

Irving Wile:

Book is to be different per grade. Book for children right up until adult are different content. We all know that that book is very important for people. The book The Second Stage was making you to know about other know-how and of course you can take more information. It is very advantages for you. The publication The Second Stage is not only giving you considerably more new information but also to become your friend when you experience bored. You can spend your current spend time to read your guide. Try to make relationship using the book The Second Stage. You never sense lose out for everything should you read some books.

Tom Tucker:

Playing with family in the park, coming to see the coastal world or hanging out with pals is thing that usually you have done when you have spare time, in that case why you don't try factor that really opposite from that. Just one activity that make you not sense tired but still relaxing, trilling like on roller coaster you are ride on and with addition of information. Even you love The Second Stage, you could enjoy both. It is fine combination right, you still need to miss it? What kind of hang-out type is it? Oh occur its mind hangout guys. What? Still don't buy it, oh come on its known as reading friends.

Margaret Holt:

Do you like reading a publication? Confuse to looking for your chosen book? Or your book had been rare? Why so many problem for the book? But any people feel that they enjoy regarding reading. Some people likes looking at, not only science book and also novel and The Second Stage or others sources were given information for you. After you know how the good a book, you feel desire to read more and more. Science book was created for teacher or maybe students especially. Those publications are helping them to bring their knowledge. In additional case, beside science reserve, any other book likes The Second Stage to make your spare time a lot more colorful. Many types of book like this.
