This guide will walk you step by step through all the essential phases of developing a results driven marketing plan.

The marketing plan is a problem-solving document. Skilled problem solvers recognize that a big problem is usually the combination of several smaller problems. The best approach is to solve each of the smaller problems first, thereby dividing the big problem into manageable pieces. Your marketing plan should take the same approach. It should be a guide on which to base decisions and should ensure that everyone in your organization is working together to achieve the same goals. A good marketing plan can prevent your organization from reacting to problems in a piecemeal manner and even help in anticipating problems.

My name is Meir Liraz and I'm the author of this book. According to Dun & Bradstreet, 90% of all business failures analyzed can be traced to poor management. This is backed up by my own experience. In my 31 years as a business coach and consultant to businesses, I've seen practically dozens of business owners fail and go under -- not because they weren't talented or smart enough -- but because they were trying to re-invent the wheel rather than rely on proven, tested methods that work. And that is where this book can help, it will teach you how to avoid the common traps and mistakes and do everything right the first time.
