Community Media: People, Places, and Communication Technologies

Kevin Howley

Community Media: People, Places, and Communication Technologies Kevin Howley

Combining original research with comparative and theoretical analysis, Kevin Howley examines a number of different community media such as radio, television, and print media, and looks at the way they impact on the lives of those who produce and consume them. He also addresses broader theoretical and philosophical issues such as the part community media can play in promoting participatory democracy and giving the socially and economically disadvantaged access to the public sphere.
