"Football Nation: Four Hundred Years of America's Game" from the Library of Congress is an unprecedented look at football from its early days in colonial America to the professional and college game in the twenty-first century. This visually stunning social and cultural history contains nearly 400 images, many rare or never before published, including memorabilia, cartoons, fine art, and game photographs. The lively text examines how the game acquired its distinct American style, survived attempts to kill it, and became the country's dominant sport, while coping with wartime, social change, intensifying fan participation, and corporate influence. Throughout the book, illustrated features explore the history of the fight song, tailgating, and cheerleading; how Hollywood has portrayed the game and its players; the long-running role of women in football; and the impact of game-changing personalities from pioneer Walter Camp to Coach Vince Lombardi to contemporary player agents. (Indeed, no other football book includes such a diverse range of figures as Abigail Adams, Nathan Hale, Confederate general James Longstreet, Al Capone, Queen Elizabeth II, John Lennon, Hirohito, several U.S. presidents, and Peyton Manning.) Quite simply, this book reveals how the United States came to be Football Nation.
