## **No Permission Needed (The Green Mountain Dream Trilogy Book 1) Dana Caldarone**

Dana is a man of logic and reason, without compromise. That is, he was, until reoccurring dreams begin to haunt him and influence the life changing decisions he makes. How much can he depend on advice given to him by family members who are dead? How can he make sense of the feeling that he is relentlessly being drawn to the Green Mountains of Vermont? And how can he logically explain the connectedness in his life that he sees at every turn? Is his life just a series of coincidences and luck? Or is there something more powerful than that at work? How will he cope, when health issues cause his own body to become his most deadly adversary? And might it be possible that he is on this earth with the primary purpose of finding the one woman that he must be with....the woman he has always been with?

This book is just a story told by a man. But reading his story will change the way you think about your life. It will change the way you look at the relationships around you and the relationships you are in. It will give you reason to reflect more thoughtfully on your dreams. And more importantly, it will challenge your beliefs about your own, inevitable death.
